

DSL CRM for RPAS

Who is this for?

Pilots need to learn more about how to best manage all their available resources for safe and successful operations.

Crew Resource Management (CRM) encompasses a wide range of knowledge, skills and attitudes including communication, situational awareness, problem solving, decision making and teamwork.

In this course you will learn all the cognitive and interpersonal skills (Human Factors) needed to manage a flight.

DSL's CRM is specifically designed for RPAS and aims to ensure a high proficiency of pilot resource management throughout an RPAS operation, based on best practice industry CRM standards.

At the completion of this subject, the student will know how to recognise and manage communications, decision-making, risk assessing, stress, fatigue, situational awareness, threats and errors.
